The Business and Technical College of Vocational Studies, Užice, wishes you a warm welcome to the 8th international conference entitled:

Science and higher education in function of sustainable development – SED 2015

The conference will gather the representatives of science, our country, society, economy, media, and others involved in the development of science and higher education through various activities, especially through the promotion of higher education in the Zlatibor district.

General topics

Bearing in mind that sustainable social and economic development requires contemporary knowledge, the conference will include scientific papers in eight programme areas:

Mechanical Engineering, Informatics and Mathematics, Civil Engineering, Environmental Protection, Management, Tourism, Economics and Students' Papers.

The aim of the conference is to highlight the role of science and higher education in achieving the sustainable development, to promote and popularize science, to improve the international scientific exchange and cooperation, as well as to strengthen the bonds between our educational institution and other institutions in our society.

We wish all the participants a successful conference and a pleasant stay in Užice and Serbia.
